

ANATOMY

Tempered glass lid

fig.

Clips to attach the Alchemist Series Alembic Dome Top and Condenser for distilling

Temperature and pump control panel

Top mesh screen

Temperature probe

Expandable grain basket to suit a large variety of grain bills

Gauze filter to keep hops and stray grain in boiler

Magnetic drive pump

Built in electric element,

Bottom mesh for grain basket Temperature probe inlet

Counter Flow Wort Chiller

Copper inner coil

SIZE CAPACITY

30 L (8 US Gal)

POWER

ideal for indoor use

2,000 Watt Element (NZ/AU/EU)

1,600 Watt Element (USA)

MAGNETIC PUMP DRIVE

6 Watt, 1,800 RPM

STAINLESS STEEL GRADE

304
